

Recording 22 Outline

- A. Is the totality of the astral world simply a consensus of all the earth people?
 - 1. It depends on what part of the astral you're in.
 - a. In the heavens and hells of the world religions, the configurations within the structure are thought forms from generations of cultures.
 - b. In the great teaching centers, a pattern exists whether there are human beings there or not.
 - 2. Your cultural references to your astral world will not just be yours, it's all the bloodline relationship, all the way back to the wolf.
 - a. The red blood cell is a powerful cellular memory.
 - b. You have to neutralize the world now that you're living in, the so-called awakened solar world.
 - c. Then, the astral you go to will not be modified by your race, your religion, your sex, and your culture.
 - 3. All experience is a mixture of objectivity and subjectivity.
 - a. For most of us, the subjective elements override the objective elements.
 - b. Some people walk through this world and never have any objective experience.
 - c. We don't pick up on what we are hearing or seeing on the astral, because we're so busy, semi-consciously, consciously, unconsciously, dealing with "noise" and "static."
 - d. The objective reality in the astral schools depends on what school you belong to.
 - e. You have to go beyond the words, transcend them. You are seeking knowledge that is transcendent, wordless.
 - f. This is sometimes expressed symbolically, mathematically or electronically.
- B. Biological parents, shadow parents
 - 1. Everybody has only one mother. Only one sperm cell can penetrate the egg. And when that happens the egg throws up an aura and repulses all the other sperm.
 - 2. Your parents put biological energies into your body.
 - a. The mother symbolically gives you the good and bad traits of the body.
 - b. The father gives you symbolically the good and bad traits of your mind, or your brain.
 - 3. The influence of other caregivers is psychological and sociological.
 - 4. The people outside of you are real entities, with personalities, and karma, and dreams.
 - a. You look at them, the sensory pattern of your five, your six senses, pick it up.
 - b. You immediately color it with past life memories, emotions, confusions, names, words, and so forth.
 - c. And you create a distortion of that person.

- d. That's called a shadow person.
 - e. If you never knew parents, you pick up a shadow mother and father from your culture.
5. We are karmic extensions of our mother and father.
- a. Our karma and our mother's are almost exactly the same.
 - b. We pick our mother, absolutely. We pick our father, but it's more tenuous.
 - a. The child enters the mother's body to check whether their karma is similar enough for them to be mother and child.
 - b. If it goes around the mother's spine three times, it must stay in her body.
 - c. Even if the mother has a miscarriage or abortion, the child will experience an incarnation.
- C. We can "grow up" and choose not to blame others for our shortcomings.
- 1. Meditating, we can ask, what do I see that I don't like, what's in me that I need to get rid of, and how do I get rid of it?
 - 2. And how do I stop it from growing into a bigger problem, so that my negative karma doesn't affect negatively other people?
 - 3. And in reverse, so that their negative karma isn't going to affect me. Group karma is very strong, and it will tend to override or speed up our own karma.
 - 4. It's true that something negative can only happen if we have the karma for it.
 - 5. But every person has practically every piece of karma.
- D. Death karma
- 1. Everyone obviously has death karma.
 - 2. We can both speed up our time of death and extend our lives.
 - 3. We're symbolically running, and if we can't get to the one place before the karma behind us catches us, we're in trouble.
 - 4. We want to get there before the karma comes.
- E. Everyone you meet, comes into our life because there is karma between you.
- 1. Your encounter may be very short, meaning the karma is completed.
 - 2. It is never an accident.
- F. The ascendant is the Stargate.
- 1. It will only open for what interests you according to the values of the ego.
 - 2. It determines what you can draw out of the well of your unconscious mind.
 - 3. Don't get too loyal or prejudiced. Doing so will limit what can come through.
 - 4. You are what you see.
 - 5. Seeing is not with the physical eyes, but always with the mental eyes.
- G. How do we help people?
- 1. Be happy, be joy-filled.
 - 2. Even if someone dies and it is a great loss, be happy.

3. Don't be depressed or sad, because you spread the unhappiness to others.
 4. If you're persistent in your patterning, people will accept you as you.
 - c. It doesn't mean being bitchy or crabby or otherwise.
 - d. It takes a great deal of skill, and warmth, and genuineness and so forth, before acceptance will happen.
- H. Genes do not completely control heredity.
1. A hereditary disease or hereditary intelligence level will not appear in every one of a couple's children, because there is a timing factor at work as well as genetics.
