

## **NOTES ON *HOW TO BECOME A PRACTICING ASTROLOGER* – PART II**

Part II of *How to Become a Practicing Astrologer* is divided into three sections. The materials are shipped every three months for a total of nine months to complete this part of the course. If you complete a section of Part II early, or need extra time, please contact us. We will be happy to send the materials when you are ready to receive them.

### **MP3s**

This course was recorded from live classes taught by Sri Goswami Kriyananda. The classes were originally recorded on audiotape and have been transferred to MP3 format. Any references in the text, or on the MP3s, to “tapes” are now a reference to MP3s.

To avoid excessive blank spaces on the MP3s, when a class ends mid-MP3, we have continued to record the next section on the same MP3.

The MP3s will often begin with questions and answers. The Q & A sessions have been included because they are informative and will help to broaden your knowledge and understanding of astrology.

Outlining the MP3s is an excellent way of learning and we have included a number of self-evaluation tests along with the answer keys to assist you.

Throughout the MP3s you will come across assignments and tests that were given to students in the live classes. You will find it helpful to complete these assignments and answer the questions and tests as you go along.

### **WRITTEN MATERIALS**

The written materials in this binder include manuscripts, which have either been extracted from the MP3s or are rough draft notes. They are included to help you while listening to the MP3s and as a quick reference to the information. The notes will also help you in outlining the material and will allow you to study independent of the MP3s.

Remember: there is a difference between the spoken word and the written word.  
You can learn in different ways from both.
