 - 2. Now you take any one of those seven planes, and that plane is subdivided seven times.

3. There are four worlds, seven planes, seven sub planes, seven sub sub planes, seven sub sub sub planes, and on and on.

 - c. Ask, "What are you trying to tell me?"
- I. Energy is nothing but form.
1. If we meet a demon on the astral, we want to change the form but retain the energy, the power.
 2. You ask it "What do you want of me?" "Who and what are you?"
 3. After getting the answers, you take the symbol and take away the power from it and assume it.

 7. What you are is one thing, to know what you are is another thing.
 8. To know that you know what you are is **the** thing.
 9. The Sun, Moon and Ascendant reaches out as a nadi, as a cord, as a string, as a channel, that is colored, and is hooked to the various parts of the universe, your unconscious mind.
 10. Where you're hooked is where you're glued, and you want to get unglued, unstuck.
 - a. You can do it by chanting.
 - b. You also can do it by thinking the thought right above where you are astrologically.

1. If you are stuck in Jupiter, the next level up is Mars. Jupiter is accumulation, Mars is action. The first thing you should do is get rid of the things you've collected.
 2. Why are you accumulating these things? It's all symbolic, it's all omenology.
 - c. You also can get unstuck by rotating energy around your spine.

 2. Break down the problem, find a solution, and then forget it.
